SUBJECT: 2447 Carriage 2001-2004 Cameo, Carri-Lite, and Carriage LS motor homes manufactured from June 2000 through October 2003. These vehicles are equipped with Samsung microwave ovens. These units were produced with a defect membrane panel. An electrical short can occur between circuit patterns on the membrane panel, especially overlapped by a "Jumper" or jump wire. This may cause the oven to activate without pressing any keypads.
